

Cranham Cub Pack Summer Term 2009

Dear Parents,

Sorry for keeping you waiting for the second half of the term's programme, but we couldn't finalise it until the date for the activity hike was finalised. Also, those Cubs who were there last week were sent home with two weather instruments and a record sheet - now that a week has passed, dedication may be starting to fade, so please remind them that they'll need to have written down pressure and rainfall readings for as many days as possible until the end of term to be eligible for the prestigious Scientist Badge!

Don't forget to keep an eye on our web site (<http://www.cranham-scouts.org.uk/>) for announcements. Please note that we need extra adults on some days; if you can help (and it's fun!), drop us an email to akela@cranham-scouts.org.uk. If we don't have enough adults, we can't do outdoor activities!

Date	Event	Badge
June 17th	Wide game and science experiment (measuring the effect of exercise on the pulse)	Scientist
June 24th	Cranham Pond visit to identify the inhabitants WEAR SENSIBLE SHOES THAT MAY GET MUDDY! PARENT HELPERS ARE NEEDED!	Scientist
